

# Guidelines

- The consignment must be registered in the B2B platform
- The order label must be printed out and clearly affixed to the transported goods before they are made available
- Each item shipped (pallet, crate, box, collie, etc.) must have its own transport label (1/3 - 2/3 - 3/3)
- The consignment must be packed securely for transport
- Before handover, it must be ensured that the goods are protected from moisture and damage
- From five large and bulky pieces, the goods must be palletized and shrink-wrapped
- Dangerous goods consignments must be prepared for transport in accordance with the SDR/ADR regulation, including a dangerous goods consignment note and correct packaging and labelling of the packaging
- The consignment must be handed over directly to the collector
- We carry out curbside collection and delivery - no floor deliveries
